

Horizontal Plug Life Test Machine

Model: SR-213

Summary:

The horizontal Plug life testing machine is suitable for plugging and unplugging tests of various connectors. The speed and stroke are adjustable, and the speed value is displayed without digital display of the force value. Set the delay, the structure is beautiful and generous.

Features:

- SUNRISE IEC60884 Electrical Switch, Plug and Socket Service Life Tester for Mobile phone/computer/USB plug machine is suitable for many kinds of connector plug and pull test, adopt embedded microcomputer measure and control technology.
- It can show the insert force, pull out force, real time force value at the same time, and has the number setting, the speed stroke can be adjusted, and display the speed value, automatically return to zero, the unit turns to calculate and so on. The dynamic design of the rotating eccentric wheel enables the connector whose test speed and test stroke are not related, long and short, to be tested equally fast.

Specifications :

Display	LED
Transmission	Rotating eccentric
Speed range	0-60 times/min (adjustable)
Insertion force range	0-20kg
Resolution force	0.01kg
LED counter	0-999999 times
Stroke adjustable range	0~50mm
Unit	N, Kg
Dimension	550*470*450mm
Power	220V, 50Hz

Different models can be chosen.

Model : SR-213

Function : life time testing

Model : SR-214

Function : lift time and force testing,
touchscreen controlled
can print test results

Model : 1220S

Function : lift time and force testing,
computer controlled,
can print A4 paper test report

Professional packing

We have professional packaging teams and shipping forwarder to pack and deliver your products safely!

- ❖ Out packing: Standard export wooden case.
- ❖ Inner packing: With careful stretch film wrap products, hard wood board + strong bandage to fix corners.
- ❖ Checking teams: Specialized staff to inspect and classified your goods.

What we produce? (always accept customize)
